

Wordcraft Launches iPhone Scanning Application

Derby, UK — July, 2009 — Wordcraft International Ltd, a developer of market leading fax, print, scan, e-mail and optical character recognition (ocr) software solutions for the MFP market, today announces the availability of a scanning application for the iPhone. **scanNow!** uses the iPhone camera to capture the image then transfers the image directly into Windows applications.

The application can now be downloaded by iPhone users via the iTunes application store, once purchased the customer will be prompted to the Wordcraft dedicated website to download the appropriate driver/utility software for their PC or MAC.

scanNow is Wordcraft's second application to be approved by Apple, the first application ocrNow is proving very popular particularly with the newly released iPhone 3GS.

Key features:

- User friendly icon driven interface
- Supports Windows XP or later
- Supports MAC OS X 10.5:

scanNow uses technology from our existing software solutions, Wordcraft has been developing scanning solutions for the past 20 years. The iPhone is a revolution in mobile internet access, we have developed scanNow for the iPhone so that our customers and iPhone users can scan wirelessly and without the need for specialised hardware" said Andrea Roach, Managing Director, Wordcraft International.
