

## **Wordcraft Announces New Release of Unimessage P3fax and P3ocr**

**Derby, UK — January, 2008 — Wordcraft International Ltd**, a developer of market leading fax, print, and scan software solutions for the MFP market, today announces a new enhanced version of both **P3fax and P3ocr**, two modules from the Unimessage P3 solution. Existing users of P3fax can download the new version from [www.wordcraft.com](http://www.wordcraft.com) as of today.

This new version offers improved integration with routing rules and icons in order to provide a seamless operation especially when receiving faxes.

### **Key benefits of P3fax and P3ocr 1.1.0.0 include:**

- Improved PDF support in P3fax
- Automatic fax ID inclusion
- Single installer for both modules
- Users can now choose to download their received faxes as .pdf or .tif attachments.
- P3console image editor icon will export the image as a .bmp (instead of as .PNG) so that the image can be edited using applications provided with Windows 2000.
- The P3fax licence manager now uses any proxy server defined via Windows Internet Options.

“Wordcraft believes product integration is key in offering customers the best solution for their investment and business, this is why we have paid particular attention in this area for this release” said Andrew Gallear, Technical Director, Wordcraft International. “We will continue in this direction to ensure compatibility not only within Wordcraft products but also with recognised third party systems”

### **Availability**

Unimessage P3fax and P3ocr 1.1.0.0 is available today via our website or through Wordcraft partners. For more information contact [sales@wordcraft.com](mailto:sales@wordcraft.com).
