---

Wordcraft's software and services offering provides solutions to its customers' strategic challenges. By working in partnership with some of the world's leading manufacturers of business equipment Wordcraft has developed solutions which respond to the specific needs of each market.

***The Wordcraft philosophy is to develop software to provide the customer with flexibility and business improvements for:***

***Integration***

***Security***

***Time Saving***

***Flexibility***

In 1978 Wordcraft International developed one of the world's first mass market word processors for the Commodore PET shortly followed by IBM compatible PCs

***Document Management***

Development then diversified into fax and communication technology, with the release of market leading software, **LaserFAX** which was later replaced with **UnimessagePro**. This scanning, printing, fax and ocr solution has been distributed throughout the world and is available in most languages. Following on from the success of UnimessagePro and the company's constant drive to release compatible solutions for an ever evolving market, Wordcraft's latest suite of products is aimed at simplifying and managing document workflow in the office, **UnimessageP3**.

***AdKlass***

A pupil assessment and reporting tool for primary schools developed in partnership with some of Derbyshire's leading schools.

***iPhone Apps***

scanNow and ocrNow currently available via iTunes.

***Linux Printing & Scanning Drivers***

CUPS and SANE drivers for printing and scanning on multi-function peripherals are available for download.

***Wordcraft Partners include OKI Corporation, Toshiba, Konica Minolta and ABBYY, for more details contact [sales@wordcraft.com](mailto:sales@wordcraft.com)***
